Date: 31st July 2025

Dear Hiring Manager,

I am writing to express my interest in the Full Stack Developer / Software Developer position. With a strong background in software development and mobile app building, along with experience leading innovative projects in the tech space, I am confident in my ability to contribute effectively to your team.

As the Founder and CEO of SPECIAL TECHNOLOGIES UGANDA, I have successfully led the development of scalable web and mobile applications, managing both front-end and back-end components. My expertise includes technologies such as JavaScript, React, Node.js, Flutter, and Python, as well as experience with cloud services and RESTful APIs.

In addition to my entrepreneurial work, I am currently spearheading PhishNet AI, a cybersecurity startup that leverages artificial intelligence to detect and simulate phishing threats, while providing employee training. This reflects my strong problem-solving skills, innovative mindset, and ability to build secure, user-focused digital solutions.

I am passionate about building software that solves real-world problems, and I'm excited about the opportunity to bring my skills, leadership, and creativity to your organization. I am open to both remote and on-site opportunities and eager to discuss how I can add value to your team.

Thank you for considering my application. I look forward to the opportunity to speak with you further.

Yours sincerely,

Nduggwa Shafiq Kinene
